

Amendment 1 to 2017-2018 Action Plan

Contingency plan for a reduction in funding

When reviewing the 2017-2018 Action Plan, please note that final allocations for entitlement cities have not yet been determined. A continuing resolution was passed in December 2016 and is set to expire in April 2017. All amounts noted in this plan for any programs or activities are based on allocations received in previous years, and the City anticipates knowing its allocation amount in late spring 2017.

In the event that there is a drastic change in funding, the City anticipates it will be able to fund 2017 programs and activities at the same level as mentioned in the Action Plan. Unspent grant funds from previous program years will be available and re-programmed to make up any 2017 budget reductions. If in the event the reduction is extreme and previous years' funds cannot make up the entire gap in funding, the City will reduce funds from its Neighborhood Implementation Program.
