Section 8 Project-Based Vouchers

In an effort to increase voucher utilization and create additional leasing opportunities for low and moderate-income families and to leverage private resources in the community, Des Moines Municipal Housing Agency developed a Request for Proposals (RFP) to implement a Section 8 Project-Based Voucher program and issued 50 Project Based Vouchers with a homeless preference in 2012.

The DMMHA may add 50 more Project Based Vouchers to the Project Based Voucher program. These units will be located within Polk County, Iowa.

The offering of additional vouchers may be evaluated but will not exceed 20 percent of DMMHA’s program budget authority.

Des Moines Municipal Housing Agency believes this is consistent with the goals and objectives of our Agency Plan and believes our past experience in the Moderate Rehabilitation program has assisted us in the administering an effective program.
